[DRA-697CIHD] Premier AM/FM/FM Stereo Multi-Source/Multi-Zone Stereo Receiver with HD Radio

The DRA-697CIHD receiver will shine as the core to your high end Hi-Fi stereo multi-room audio system. Equipped with many new features including HD Radio, it can handle almost any configuration combination. Its two source three zone capability allows you to run multiple sources to multiple areas at the same time with pure clean sound. With the HD tuner as a second tuner source, regular AM/FM can be listened to in one zone and HD Radio can be listened to in another zone. Being 4 ohms stable, it can handle the most demanding speakers, yet deliver smooth fidelity. Custom integration is no problem either as this enhance receiver has all the connections an installer needs to integrate to third party control systems.

- 100 watts x 2 channels
- Signal Level Divided Construction (S.L.D.C.)
- RS-232C control
- Serial IR remote ports
- Subwoofer output
- +12 volt triggers
- XM Radio Ready (Connect and Play antenna sold separately)
- Dedicated iPod port for optional ASD-1R D-dock
- HD Radio
- Multi-cast reception capable
